In case of fire, medical, or police emergency, dial **911**. They will dispatch the necessary service.

#### The Emergency 911 System

When your telephone service is installed, Embarq notifies the Moore County Emergency Management Office of your name, address and telephone number. When you dial **911**, this information automatically appears on the dispatcher's computer screen. The dispatcher receives this basic information whether you are able to speak or not. To further expedite the **911** process, you may complete a **911** form denoting any health problems, special conditions, stored hazards, etc., that may be of help to the people who are responding to your call. **911** forms are available at the Police Department.

#### Emergency Lights

All residences must be equipped with an outdoor emergency flashing light to readily identify the residence where a night emergency exists.

#### Reflective House and Dock Numbers

To expedite emergency response, all residences must have three-inch contrasting reflective numbers attached to both sides of the mailbox or other appropriate address marker post. Lakefront homes with docks should post the reflective numbers on the dock.

The Village maintains eight lakes within Whispering Pines. Thagard Lake is the only lake on which boats propelled by gasoline engines are permitted. Boats propelled by electric motors are permitted on other lakes. There are swimming, boat launching and picnic areas at several locations for use by all property owners and/or residents. Residents and/or property owners may obtain temporary permits for their guests to use the lake facilities. Permits are available at the Village Hall.

There are a limited number of on-shore storage spaces for small boats at the public areas on Spring Valley, Thagard, and Whisper lakes. There are no public docking or storage facilities for large boats.

Residents on lake-front properties are allowed to use the lake water for irrigation. A permit from the Planning and Zoning Director is required. A list of such users is maintained at the Village Hall and by the Lakes and Watershed Board representatives for notification purposes whenever there is an irrigation moratorium established due to chemical treatment of the lake waters. It is advisable that if residents plan to be away for a period of time and their irrigation system is set to operate on a time clock, they ask their neighbor to turn the system off in the event of an irrigation moratorium during their absence. It is helpful to provide the neighbor with instructions for operating your irrigation system. The Village is not responsible for any property damage that may occur as a result of the chemical treatment of the lakes.

The lakes are tested regularly during the warm weather months. If a hazardous or unsafe condition is noted, residents will be notified, and all or some portion of any lake may be closed to human contact. As with any

natural body of water, there will always be some level of animal waste present in the lakes.

Permits must be renewed every three (3) years. Permits are issued only to the residents and property owners of Whispering Pines.
